

PhaRA extends its Regulatory Services through Talentsharing

Through more than 10 years of experience and valuable partnerships with clients, we have felt the pulse of the increasingly demanding customer needs. Therefore, PHARA+ was established, to meet clients' demand for flexible talented regulatory on-site support.

PHARA+ wants to provide driven, flexible people who have a special interest, gene and skill set for regulatory affairs. It's not about just providing another resource, but providing people who are competent, pleasant to work with and who share PhaRA's regulatory talent and energy.

With PHARA+, the client is in the driver's seat: PHARA+ people facilitate the ride on regulatory roads by flawlessly executing regulatory strategies and activities that clients have defined internally.

PHARA+ is about sharing resource and talent where this talent is essential, while still benefitting from PhaRA's long standing experience.
